Registration

Registration is possible via the digital registration form on our website or by telephone with the customer advisors; Registration is possible from three months of pregnancy for a daycare center (kdv), from one year for a play-learning group (slg) and from two and a half years for out-of-school care (bso).

PLACEMENTS

Placement procedure and sequence

General:

- If multiple children are registered in one category, the registration date will determine the order in that category.
- Sometimes the group composition makes it necessary to deviate from the placement procedure (e.g. better distribution of age, gender). Ska Kinderopvang reserves the right to deviate from the order in those situations.
- When a location and/or group closes, children from that location are given priority for relocation to another location.
- Priority on the grounds of social and/or medical indications can only be granted with a written, extensively substantiated request from a doctor or care provider. This is at the discretion of the regional manager.
- The orders for KDV, SLG and BSO apply as long as no adverse business economic and organizational effect occurs. Ska Kinderopvang reserves the right to deviate from the order if this has an adverse economic and/or organizational effect.
